

Library Systems

Seamless Integration

EasyTrace can integrate with or supply a wide range of third party library systems enabling staff and students to use the same card for the library as they do to access other school facilities e.g. for Cashless Catering, EasyPrint, E-registration.

Using one single card across the school delivers maximum security for your library and a straightforward solution for both staff and students. EasyTrace solutions are fully integrated by a single, secure, back-end database (Infinity) and linked to your existing MIS and portal systems. It saves significant work for your library staff, as account information will be synchronised with Infinity.

Why use EasyTrace?

EasyTrace can integrate with or supply the following range of 3rd party library systems enabling staff and students to use the same card for the library as used to access other facilities:

Eclipse.net (Micro Librarian Systems)

Heritage (IS Oxford)

Alice & Oliver (Softlink)

Your current library system will be seamlessly updated with users card details - new library users can be created in the usual way within the library system. Any bar code system currently used in the library is retained and, if required, can be printed on to users' cards.

Nothing else changes - seamless integration, one card, one database of user details - all of which contribute to a smoother, and easier to administer, system at the school.

Benefits

- Integrates with the main library systems
- Can provide 3rd party library solution
- Same card can be used

Library Systems

We already have a library card for each student - does this mean having two cards?

No - we would integrate the library details into the new Proximity or Mag Stripe EasyTrace card. The unique card number is linked into the Library System, so it knows which library-enrolled account to access.

Card Security

If a student loses their card it can be immediately disabled and a temporary replacement is issued. If someone attempts to use a disabled card, the system rejects it as an invalid card.

Integration with other systems

We are the longest standing member of Capita's Premier Partner programme and link with SIMS. We also link to others such as CMIS, Integris G2.

See EasyTrace in Action

We are happy to provide a demonstration of any of our solutions or arrange a visit to a school that is already using EasyTrace.

**Just call 08456 717 101
or visit www.easytrace.co.uk**

But don't just take our word for it!

“ We have found the library card system to be helpful in tracking the identification of students using the system and this enables us to reward regular users. ”

**Steve Warburton - Director of Innovation and Development
Thomas Deacon Academy**
